PROFILE

Dynamic Software Engineer and Full-Stack Developer with expertise in building scalable web applications, enterprise systems, and WordPress solutions. Proficient in PHP, MySQL, WordPress, and modern frontend technologies, with a strong foundation in UI/UX design. Skilled in developing responsive interfaces, optimizing performance, and delivering user-centered solutions that drive business objectives. Passionate about leveraging emerging technologies to create impactful digital experiences.

PROFESSIONAL EXPERIENCE

Software Developer

Tech Gear Solutions

06/2024 – 08/2025

Hurghada

- Analyzed business and client requirements to design and implement effective software solutions, resulting in streamlined operations for enterprise management systems.
- Developed responsive, user-friendly web interfaces using HTML, CSS, JavaScript, and Bootstrap, enhancing usability and user experience for diverse audiences.
- Built and maintained full-stack web applications and enterprise systems, including financial and cashier modules, supporting over 100 daily users.
- Optimized system performance through rigorous testing, debugging, and code refactoring, reducing load times by 20% and improving reliability.
- Collaborated with cross-functional teams to deliver projects on time, ensuring high product quality and alignment with business goals.
- Recognized for professionalism, meeting tight deadlines, and demonstrating continuous self-improvement in a fast-paced environment.
